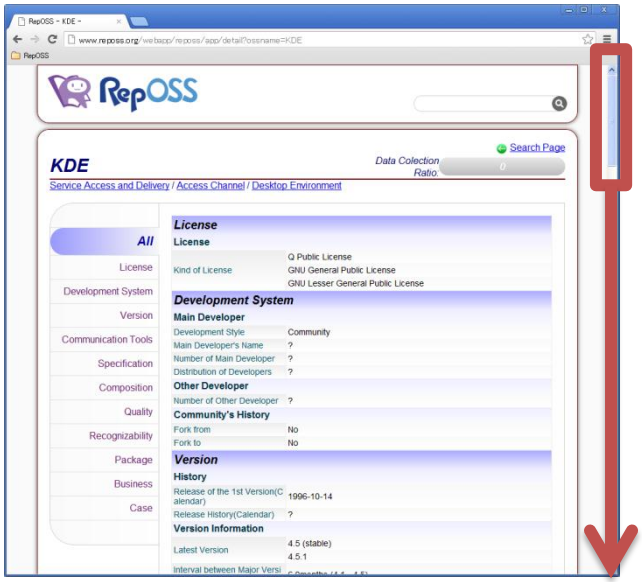
Why the RepOSS system renewed ?

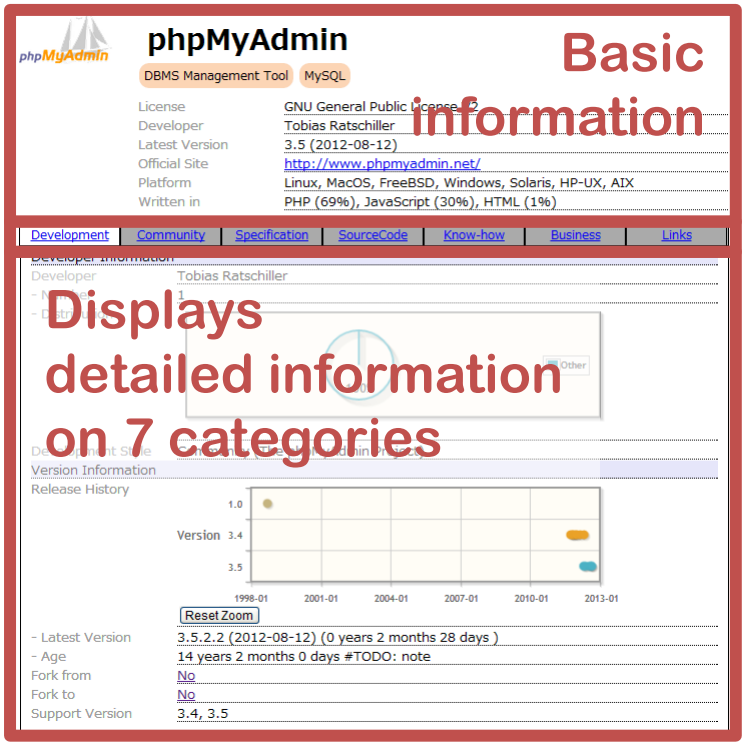
Problem ： Too much information on one screen.

⇒ **Information is divided into some categories.**

Only one category's information is displayed at a time.



You need to scroll a lot.



Basic information

7 categories

Displays detailed information on 7 categories

Why the RepOSS system renewed ?

Problem ： Each software has only one function.

⇒ **Each software can have two or more functions.**

- **System Management**
  - Integrated Monitoring
    - Hobbit Monitor
    - openQRM
    - Monit
    - Zabbix
    - Nagios
    - Groundwork Monitor
    - Hinemos
    - Ganglia
  - Software Monitoring
    - Jconsole
    - LambdaProbe
  - Network Monitoring
    - NetHogs
    - MRTG
    - PasTmon
    - Zenoss
    - OpenNMS
    - GNetWatch
    - IPTraf
    - collectd
  - Log Monitoring
    - Swatch
    - logwatch

For example, Nagios has several monitoring function.

Nagios

Integrated Monitoring	Software Monitoring
Network Monitoring	Log Monitoring

phpMyAdmin

DBMS Management Tool　MySQL

License	GNU General Public License V2

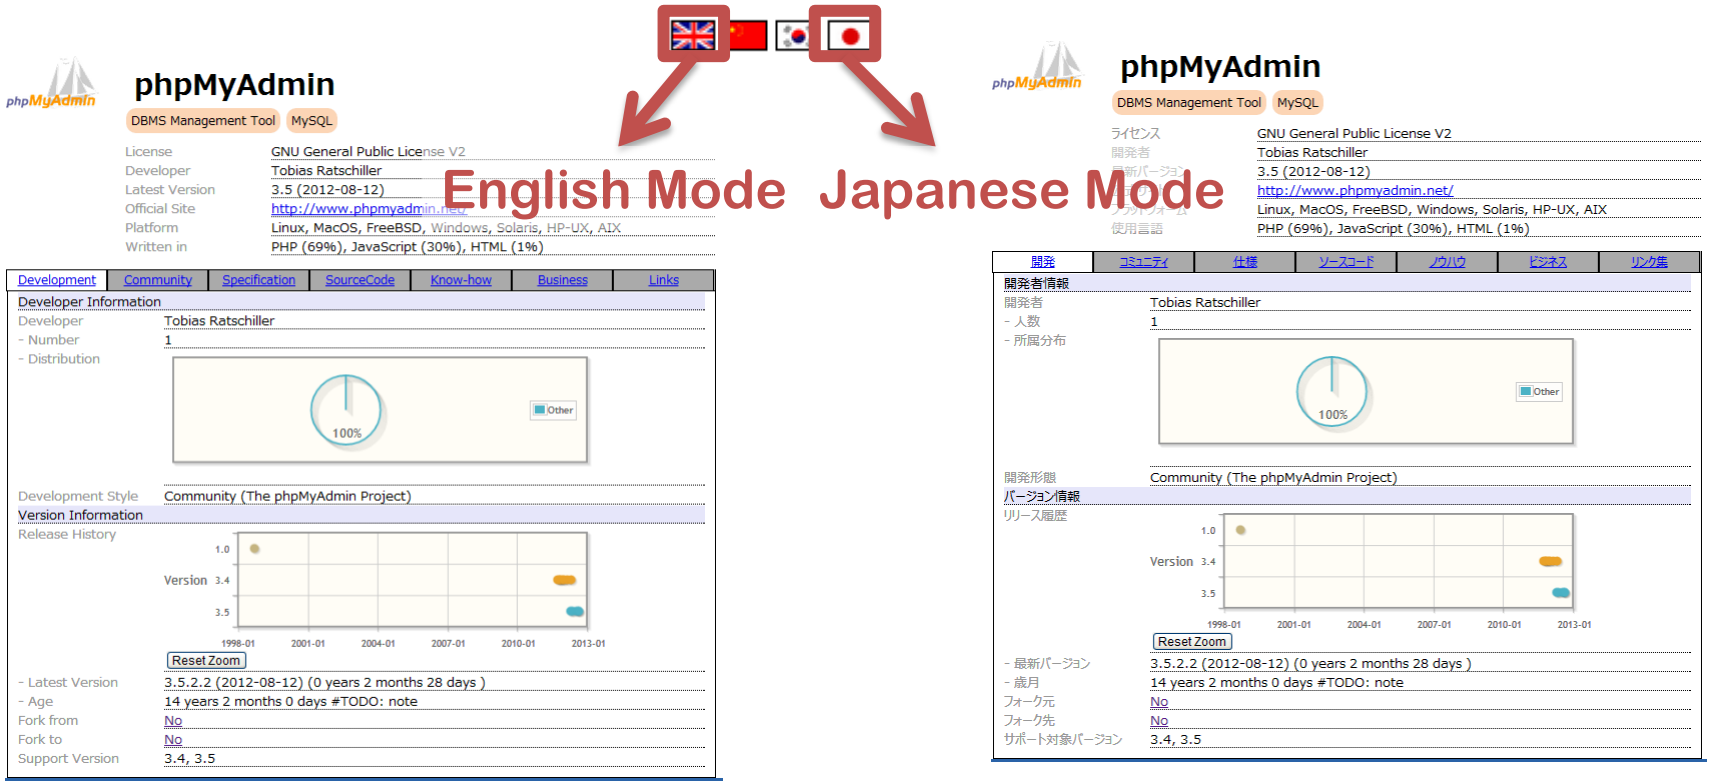
Why the RepOSS system renewed ?

Problem ： Support language is English only.

⇒ **Multi-Language support.**

（ Chinese, Korean, Japanese and English ）

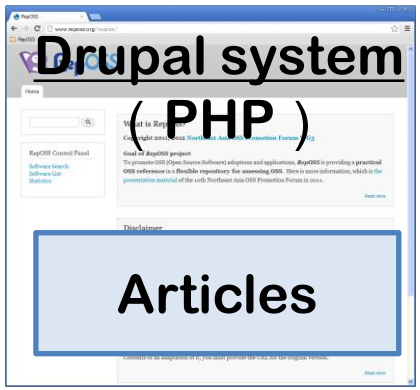


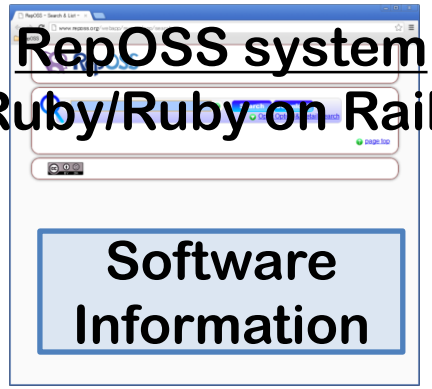
Copyright 2011 Northeast Asia OSS Promotion Forum WG3

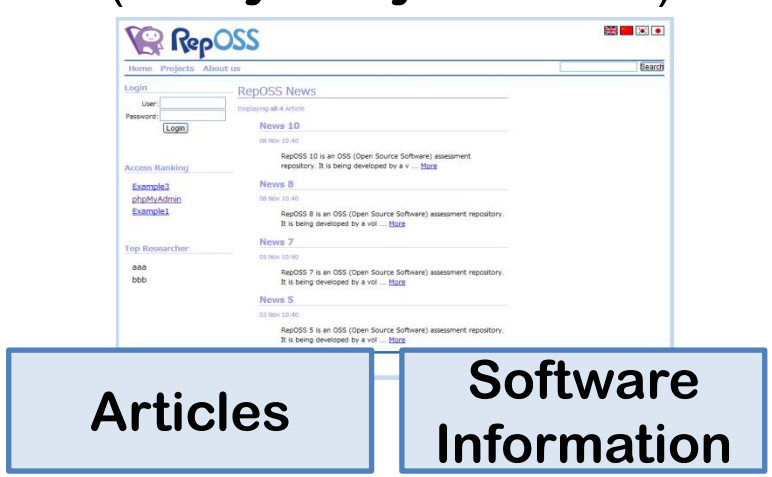
Why the RepOSS system renewed ?

Problem ： We'd to manage two systems.
（ Drupal system and RepOSS system ）

⇒ **Two systems are integrated.**







Copyright 2011 Northeast Asia OSS Promotion Forum WG3

Why the RepOSS system renewed ?

Problem : It's cramped because there're a lot of characters.

⇒ **More graphical representation.**
